Kevin Anthony Walsh MSc BMAS MCSP DRM MCPara PGCert ECP

I worked in the NHS for over 25 years originally training to be a NHS Paramedic, Clinical Tutor and Pre-Hospital Trauma Life Support Instructor; a career that has covered several specialist areas including NHS training, University lecturing and working in senior management and clinical positions. In 2004 I qualified as an Emergency Care Practitioner at the University of Herefordshire and became an autonomous Clinical Practitioner.

I started training for my second career in 1998 and became a Chartered Physiotherapist and Sports Therapist in 2005. I have also studied and undertook professional training in Complimentary Medicine and Medical Acupuncture. My specialist interest is focused on the treatment and rehabilitation of general musculoskeletal injuries and sports injuries with a special emphasis on back injuries and back pain. I am a professional member of "Back Care", the charity for healthier backs, formerly the National Back Pain Association, which is solely committed to reducing the impact of back pain.

The practice in Renhold has been established since 2000 and is a recognised *PHYSIOfirst* Centre.

- Medical acupuncture
- Aromatherapy

What to expect on your first appointment

On your first appointment a detailed history will be undertaken regarding your basic health, lifestyle and present condition. It may also be necessary to conduct certain clinical tests such as, temperature, blood pressure and reflex testing. Anatomical testing and bodywork normally follow and therefore, your first visit is likely to take longer than subsequent treatment sessions. Assessment and treatment may require you to undress down to your underwear and you will be asked to bring a pair of loose fitting sports type shorts to wear. You are welcome to bring a friend, parent or partner to accompany you throughout your appointment and to any follow up treatment.

Important Information – Client Declaration

Kevin Anthony Walsh will provide you with a full and thorough explanation of the examination and treatment procedures appropriate for your condition. The examination and treatment may include body contact which may be considered invasive in nature but which formulates a normal part of the examination and treatment procedure. Following your understanding of these facts the examination and treatment will only proceed if you agree and give your informed and continued verbal consent.

System of Referral

Clients can attend the practice by self-referral or by referral from their GP or health care professional. Occupational Health Departments can also refer their staff for treatment if they have an agreed contract with the Clinic.

Payment

We accept cheques with guarantee card, cash payments and most major credit cards. Fees must be paid on the day of provision. The practice is a recognised provider for some of the major private health insurance companies. These companies may pay some of the costs towards your treatment, however, it is the responsibility of the client to check with their respective insurance provider first.

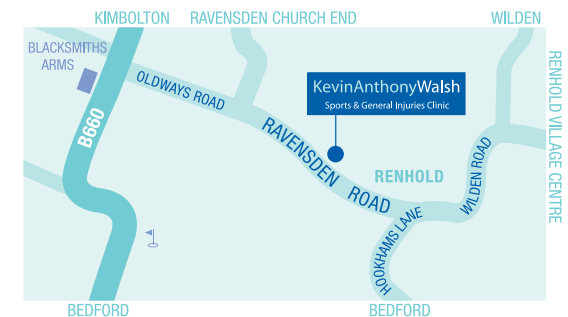

Practice Hours

Practice hours are very flexible so that you can be seen in the daytime, evening or at the weekend. Please note, that treatment is by appointment only.

Practice Location

The practice can be found in Renhold which lies to the North of Bedford. Treatments are conducted in a relaxing and confidential environment. There is ample off-road parking with adequate lighting.

Please note that cars and valuables are left at the client's own risk and that the practice accepts no responsibility for these items.
